MEET OUR FOUNDERS

Dear Student,

Since 2021, Qbay has been dedicated to supporting international professionals especially those aspiring to work within the NHS in finding the right and sustainable career pathways.

This programme was created by Dr. Mohamed Shafeeq, an NHS doctor who understands firsthand the challenges international graduates face in entering and progressing within the UK healthcare system. Built on real NHS experience, the programme bridges the gap between ambition and practical career success.

To date, we have supported over 50,000 students and professionals across four countries. Our journey was shaped by learning, refining, and rebuilding driven by consistency, discipline, and a deep understanding of NHS systems.

Today, Qbay is recognised among the Top 1% Career Startups in the UK, with 91% of our students successfully progressing in their careers, many into NHS roles.

Dr. Mohamed Shafeeq Karat | NHS
